R-V INDUSTRIES ACHIEVES OSHA AWARD

R-V Industries, Inc. of Honey Brook, has been awarded the SHARP certification (Safety & Health Achievement Recognition Program) through OSHA. This rating has been achieved by less than 30 other companies in Pennsylvania. The certification required R-V to undergo a series of inspections and interviews and also work with the Indiana University of Pennsylvania for OSHA consultation. The Safety and Health Achievement Recognition Program (SHARP) recognizes all employers who operate an exemplary safety and health management system. Our acceptance into SHARP by OSHA is an achievement of status that singles us out among business peers as a model for worksite safety and health.
